

Vladimír Suchánek

Melancholic coach

This exhibition provides the most comprehensive overview of the creations of the leading Czech graphic artist, Vladimír Suchánek. The exhibition is dominated by colour lithographs, which are the subjects of his lifelong interest. Little-known work from the 1960s is presented here for the first time on a larger scale, and is without doubt an addition to the formation of a comprehensive picture of the artist's work.
